About the Company:

Adsil is a manufacturer of patented glass film forming chemical surface treatments under the Trademark of MicroGuard®. These surface treatments protect metal from corrosion and concrete, tile, grout, painted metal and terrazzo from chemical attack. The new surface is extremely hydrophobic and thereby cleans easily, requiring 30% less water and only eco-friendly cleaners. The AD35 treatment is used on HVAC fins and coils and has EPA certification to reduce energy use by 12% per year and carbon emissions by 60 pounds per ton of HVAC per year.

Pricing: The surface treatment is sold in the form of an application job. These are priced on a per ton (HVAC capacity) basis. See attached price list.
